Carver High School

Greetings, Readers. Here are the important facts to give you this week's chapter of the Carver story. We trust everyone has had his fill of the April showers for this spring after that weary and rainy week-end. But despite the wet downfalls of the preceding week, the Carver Science Club managed to attend the Science Conference at Hampton Institute. Work resumes on that Science Hall as well as on a swimming pool in the campaign for the war bonds the first group sang at Luther Foster High School in Blackstone where they witnessed a demonstration "Preserve and Progress." Among other things the students were was the history of the Negro and also the principles of the electric eye and the production method of sunlight to energy. They also attended other Y. W. C. A. Tech. College.

At the conference Lillie Mae Lewis, daughter of Mr. and Mrs. Hank Lewis of Gladstone was elected the first act in the theme of competition. Those present were Beverly Hargrove of Appomattox County. The Carver Science Club conducted a swing with the two participating from Mr. Warren Jones and Annie Rowe. Mr. Jones sang "Because" and "Ole Lonesome Road." It was later announced that Miss Lewis was the winner of a prize belonging to Dr. Percy Piscitelli of Lawrenceville, Va.

Since the Science Club was organized last year it has planned three visits in addition to participating in the organization's meeting from the large high schools in Richmond. Norfolk and Petersburg. Carver is a small school and other schools have not only a greater number of students, but superior laboratory facilities. Carver is a small school and is highly considered in the science they have attained in recent years.

Our principal, Mr. J. T. Butler, was elected president of the State Science Club organization.

Carver is attempting to secure off on the diamond K. E. Wilson of Farmville this Friday. The game, second of the season for Carver will climax the play, concerning May 1st. It will be played at Lee Theater ball park.

This week everyone is preparing for May Day, which will be held this year at Camp Wilcox. Miss Barbara Lewis will reign as queen. Her attendants will be Misses Gloria Parker, Lillie Mae Lewis, Janice Lawing, Clarencia Mitchell, Cossie McKay, Bernice Christian, Sarah Harvey, Rita Chambers, Thurmelion Ferguson and Helen McKay.

The Tenth Grade had an interesting lecture on the board last week. There were many nice comments made on it.

The Tenth Grade is glad to have their home room teacher, Mrs. Smith back after her long trip to Hampton.

The class in English II has completed their course in American literature and are now reviewing English grammar. Members of this class who attended the Science conference seemed to have enjoyed it tremendously.

The Tenth Grade presented an interesting new program in assembly, Friday. Each class participated. The winners were Barbara Pauley and Roberta Lewis.

Until we meet again your reporters, Warren Jones and McKinley Turner say so long and wishing you a pleasant week-end.

While we deliberate how to begin a thing, it grows too late to begin it.

Darkleaf

(Continued from front page)

Grady was alive with politics. We will come back to our notes on Atlanta when the occasion presents itself.

From Atlanta we pushed north on U. S. 29. Athens: a college town worthy of more space than I can give it today. Home for Greenville, S. C., where we spent a night in a charming hotel, one of the neatest we had seen. And on to Spartanburg, and many another fine town, and across North Carolina to spend the night in Burlington, and that was an easy day's ride from home. In Durham, we stopped by to look up our friends, the J. Marshall Walker's, as we had looked up the Harry Pickett's in Burlington. Mr. Pickett is foreman for the daily newspaper in Burlington.

And now, in conclusion, may we comment that Dixie is on the boom. Industry is working an economic revolution. The South is the land of opportunity today, and we foresee an era of boom in this region for at least another generation. And in many wonderful towns and cities the charm of the Old South has been retained, so that one is not likely to forget DIXIE.

AN ANNOUNCEMENT TO THE PUBLIC

I had planned to go back in business this year. But so far, I have been unable to secure a suitable location.

In the meantime, if you want to rent or buy a house, come to see me at my home, Oak Street and Lee-Grant Ave., or Dial 2712.

I also have some desirable building lots on either side of town, just outside the corporate limits. Telephone and electric service available, water and mail route pending.

Sometimes I have some ready cash, with which I can help you finance your electric range, refrigerator, washing machine and a few items in furniture.

Come to see me—I might be able to save you some money.

Your friend,
A. T. INGE.

Homemakers' Items

Freeze food . . . not your clothing. That's the advice from Iva Byrd Johnson, clothing specialist at VPI, who says there's nothing to the advice being bandied around these days to the effect that "freezing once will prevent runs."

Miss Johnson says the "freezing runs" rumor started before the war. At that time industry conducted tests which proved conclusively that freezing hose didn't help them. Now again, with many women passing on the same advice, industry has conducted other tests. "Freezing contributes nothing to the wearability of stockings," the researchers say. They end up with the question, "Would you freeze your blouse or slip? Certainly not. We recommend that you save the space for food."

Brushing the blanket before washing, during drying, and after it has dried completely is important in preventing and minimizing shrinkage. It also will recondition badly felted blankets. Brushing does remove some of the blanket's nap but it will stretch the blanket somewhat. It will make it soft and fluffy and the nap will stand up like new.

In the kitchen where most home accidents occur, cleanliness and orderliness are important, from both the accident prevention and health standpoint. When it is necessary to reach high shelves, a sturdy stool or short stepladder is much safer and easier to use than boxes or chairs.

Disorderly housekeeping, poor furniture arrangement, slippery waxed floors, worn floor coverings, unanchored rugs or carpets, spilled liquids or food, and dark or obstructed passageways are other fall hazards found in many homes.

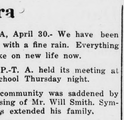
Home Agent's Notes



(By Mrs. B. G. Anderson)

Home Demonstration Club notes:

More about the recent Nutrition Survey: Tomato Campaign for 1952.

The Appomattox survey results came just in time for the horticulture and food departments of VPI Extension Service to join forces and plan the 1962 Tomato Campaign. The slogan is "Grow more, can more, eat more."

Tomatoes are easy to grow, easy to can and easy to serve. The best standard varieties: Early - Stokesdale, Prichard and Pan American; late: Marglobe, Rutgers and Queens.

Yellow - Sunray

Plant ten plants for each member of your family. You may expect one peck of tomatoes from each plant. Spray or dust with copper rotenone for insect control and blight. Select only stocky disease-free plants from local source or grow own plants.

Canning briefs: Plan at least thirty quarts of tomatoes per person. (A bushel cans about twenty quarts). This means about six extra plants per person in your family.

Use cold-pack method for home canning to conserve vitamin C. Tomatoes do not freeze well, but the juice may be frozen. Make catsup and chili sauce for home use.

Serving suggestions: Use tomatoes at least four times a week. Heat and air destroy vitamin C, so cook as short a time as possible in covered pans. Serve tomato juice for breakfast; tomato soup for lunch; tomato salad for dinner.

Mr. and Mrs. John Pillow visited

SENATOR BYRD HAS SUPPORTERS HERE

Local admirers of Senator Harry Flood Byrd have started a movement supporting him for the Democratic nomination for the Presidency.

The Times - Virginian has received this week twenty-two copies, bearing individual signatures, of the following statement:

"I would like to see the Democrats nominate for President of the United States: first choice - Senator Harry Flood Byrd; second choice,- Senator Richard Russell."

A recent "straw vote" conducted by this paper showed Senator Russell a favorite locally for the Democratic nomination, with General Eisenhower the top choice for the Republican nomination.

It is interesting to note that the "mock convention" held this week at Washington and Lee University, resulted in the nomination of Gen. Eisenhower for President and Gov. Warren, of California, for the Republican ticket.

There has been an increase in political interest since the statement by President Truman that he would not be a candidate for re-election.

Attention is also directed to the fact that May 3 is the deadline for payment of capitation taxes to be eligible to vote this year.

CELEBRATES BIRTHDAY

Dennis Turnes Brown, youngest son of Mr. and Mrs. Hugh Waverly Brown of Gladstone, celebrated his fifth birthday Saturday with a party at the home of his parents. The house was lent a festive note with spring flowers, balloons and favors of hats and baskets of circus animals for each young guest. Movies were shown for entertainment after which the honoree was presented many gifts. The traditional birthday cake was cut and served with ice cream and other party refreshments.

Present for the occasion were the honoree's maternal grandparents, Mr. and Mrs. Oscar Russell Turnes of Concord; his paternal grandparents, Mr. and Mrs. Robert Lee Brown of Gladstone; his great aunt, Miss Alva Moore of Lynchburg; and the following young contempories: Donny Brown, brother of the honoree, Jamey Wright, Grey Henson, George Raine Banton, Rebecca Ann and Nellie Jane Quinn, Tamara Goobby, Charlie, Michael, and Alfred Wallace, Peggy Jo Taylor, Kenneth Jobe, Nancy and Lynn Payne, Vivian and Linda Cobb, and Sandra and Betty Harris, all of Gladstone.

The Letter Box

Spout Spring, Va., April 28, 1952.

Mr. F. L. Murphy,
Supervisor Southside District,
Appomattox, Va.

Dear Mr. Murphy:

For some time I have been advocating an elementary school for Appomattox, built large enough to consolidate the small rural schools. In this way the overcrowded condition of the present school can be eliminated and the new school can be staffed with qualified teachers. If these two conditions can be remedied no community would be concerned about the child not receiving the best education possible.

Any community that expects good schools, and at the same time refuses to provide a suitable building, is demanding the impossible. Some people in our community are making that demand. They are afraid to undertake the new school project because building costs are "too high." They seem think a school can be carried on as efficiently in the future as it has been in the past, even though the schools are crowded. It cannot be done and this condition exists in the Appomattox school, as well as others.

Educational efficiency is already seriously impaired at Appomattox by overcrowded class rooms. No community is expected to give every child the complete education he desires, but every community can build schools that will give the child a chance to better prepare himself to pursue the kind of life and work he desires.

A new elementary school for Appomattox is the first essential necessary for better education. Build that school now and provide the basic foundation for the education of all children.

Sincerely yours,
Mary D. Collins.

Dear Mr. Robinson:

The attached is copy of letter I have written Mr. Murphy. Please publish it in this week's paper, under "Letter Box" heading. I wrote Mr. Murphy I was sending copy to you. Thanks,

Mary Collins.

(Note: Another school letter on Page Two).
